Townhouse in San Agustín with lovely terraces and sea views

This is a nice town house from 1988 in great condition (renovated 2014). It has an excellent location in San Agustín, with lovely views and proximity to the beach. This house has a lovely Southwest-facing terrace from where you enter the house. On the main floor we find a modern kitchen, a bathroom, a bedroom and a living room with exit to a built-in balcony. Upstairs there are three large bedrooms and two bathrooms, one of which is an en-suite. Two of the bedrooms have access to a large terrace, also facing Southwest with sea views. From this terrace you reach the large roof terrace via a spiral staircase and here you may enjoy even better sea views and a nice view of the mountains. At the back of the house there is a large green lawn and right adjacent you will find one of the nicest parks in the area. The house also has a garage. Additional information: air conditioning, heating, double glazing, garage.
