Studio apartment with airy loft-feeling in Santa Catalina

This is a large studio apartment with central location in front of the church in Santa Catalina and just a few steps from the lovely sea promenade. The property has been renovated to high standards, and is ready to move in. Here you will find 75 spacious square meters in an open plan layout, perfectly adjusted to the modern urban lifestyle. The studio has a private entrance directly from the street. Thanks to the high ceilings, the apartment is very bright even though it is a bottom floor. The property offers everything you might need: central heating, alarm, safe, nice wooden floors, and smart lighting. The building is very well maintained and the monthly fee is low. Additional information: central heating, double glazing.
