Unique newly built houses in Deià

This new and exceptional project is located in Deià, in the heart of the Sierra de Tramuntana. In the midst of a picturesque mountain landscape, the small village of Deià is one of the most beautiful places in Mallorca. The project is, like its location, unique in its kind. Surrounded by a Mediterranean landscape, there are only 6 houses remaining out of the original 21 houses that are located at the foot of the Teix mountains. Designed by the famous Majorcan architect Toni Juncosa Aysa and inspired by the authentic character of the island's villages, Petit Deià carefully preserves the tradition, peace and charm of its natural surroundings. The houses are built with traditional Majorcan techniques and materials. With a carefully planned interior, each home has its own special character. The houses vary from 108 m2 to 228 m2 and have 2 or 3 bedrooms. All houses will have one or two terraces, an open kitchen next to the living room that offers a contemporary lifestyle and the living-dining room with a fireplace creates a cozy atmosphere. The colors of the blinds of the windows, the type of doors, windows and chimneys, everything will be designed exclusively for each home, giving all properties their own character. The facades will be covered with natural limestone. Prices range from 875 000 € to 1 490 000 €. Additional information: underfloor heating, high technology air conditioning (h/c), double glazed windows, and parking or garage.
