Beautiful corner house with lovely terraces and afternoon sun in Palma

This is a lovely 2 storeys corner house with garden and terrace in Palma, within walking distance to Plaça d'Espanya and the centre. The entrance welcomes you directly into the living room that surprises with a loft and glazed bodega, in direct connection to the open kitchen with kitchen island and dining area, as well as access to the typical Spanish patio; a light flooded oasis where you can enjoy tranquillity in the middle of the city. In the other part of this same floor you find the bedrooms, bathroom and an office, and the stairs up to the second floor where additional bedrooms and bathrooms are located. Here you will also find a wonderfully private sun terrace. In front of the house there is another terrace and garden. The house also has a proper garage. This is the perfect family house close to everything you need and easy access to the highway that takes you to the airport and to the island's beautiful beaches. Additional information: Air Conditioning, underfloor heating, private garage.
